PROFESSIONAL SUMMARY

AWS Certified Solutions Architect and Full Stack Developer with hands-on experience in building scalable and secure web applications using the MERN stack. Skilled in architecting cloud-native solutions on AWS , while actively contributing to open-source projects.

PROJECTS

HotDrop: Pre-Order Web App ↗

06/2025

Tech: Next.js, TypeScript, Prisma ORM, PostgreSQL, AWS (S3, EC2, Route 53)

- Built a full-stack preorder platform to help campus users avoid long queues at food stalls and get faster pickups.
- Created vendor dashboards for shopkeepers to manage items, view incoming orders, and update live availability.
- Integrated secure image uploads using AWS S3 and deployed backend on EC2 with custom DNS routing via Route 53.
- Designed a responsive and intuitive interface for seamless ordering and real-time updates.

SleekRoad: Campus Marketplace Platform ↗

10/2025

Tech: Next.js, TypeScript, PostgreSQL, AWS (S3, EC2, Route 53),Firebase

- Developed a campus-based marketplace where users can buy/sell second-hand products, tech services, or tutoring offerings.
- Implemented seller dashboards for listing products/services, managing inventory, and viewing buyer interactions.
- Integrated Firebase authentication and secure AWS S3 storage for product images and listing data.
- Designed smooth buying workflows with seller profiles, item photos, and quick contact options for seamless transactions within campus.

AWSsphere: Cloud Deployment Architecture (AWS) ↗

03/2025

Tech: AWS (EC2, Auto Scaling, ALB, S3, DocumentDB, Route 53, CloudWatch, IAM, SSM Parameter Store)

- Designed a secure, scalable, and highly available AWS deployment architecture for a full-stack blog platform.
- Built automated compute infrastructure using EC2 Launch Templates, Auto Scaling Group, and Application Load Balancer.
- Architected storage layer using Amazon S3 for media assets and DocumentDB as a managed MongoDB-compatible database.
- Implemented Route 53 DNS routing with ACM SSL certificates for encrypted access and improved reliability.
- Integrated IAM for granular access control, CloudWatch for monitoring, and Parameter Store for secure secrets management.

AWS-Buddy: Voice-Controlled Desktop Assistant ↗

05/2025

Tech: Python, Flask, AWS (Polly, Lex, Transcribe), Web Browser Automation, Speech Recognition

- Developed a Jarvis-like voice assistant capable of opening apps, typing, browsing, adjusting volume, and executing system tasks via voice.
- Integrated AWS Transcribe for speech-to-text, AWS Lex for intent recognition, and AWS Polly for human like responses.
- Added contextual memory to store personal information (name, birthday, favorites, etc.) and respond with personalized results.
- Designed workflow automation to convert Speech → Intent → Action → Voice Response for smooth human-computer interaction.

EDUCATION

Computer Science & Engineering

08/2024 - 07/2028

LovelyProfessionalUniversity - Bachelorof Technology

CERTIFICATES & ACHIEVEMENTS

AWS: Certified Solutions Architect ↗

03/2025 - 03/2028

Winner: Nebula Hacks 36-Hour Hackathon ↗

02/2025

Open-Source: JSON Schema Organization ↗

11/2025

SKILLS

- **Cloud:** AWS (EC2, S3, Route 53, ELB/ALB, IAM, CloudWatch, Amazon Lex, , Auto Scaling, ACM, SSM, VPC)
- **Full-Stack Development:** JavaScript, TypeScript, Node.js, Express.js, Next.js, EJS, React.js, CSS
- **Databases & Storage:** MongoDB, DocumentDB, Firebase, Prisma ORM, PgSQL, MySQL, DBMS
- **Tools & Technologies:** Git, GitHub, Postman, Tailwind CSS, JWT Auth, Razorpay Integration
- **Programming & Scripting:** Python, C++, JavaScript, TypeScript, Shell Scripting, Linux, AWK

LANGUAGE

English

Fluent

Hindi

Native

SOFT SKILLS

- **Problem-Solving:** Efficiently analyze issues and deliver quick fixes
- **Communication:** Clearly convey ideas in technical and team settings
- **Collaboration:** Work effectively in agile and cross-functional teams
- **Adaptability:** Learn new technologies quickly and handle pressure well
